Sub: Guidelines for calling tenders etc.

1.0 Calling of Tenders:-

Since at present there is no guidelines for calling of tender in this office, the following guidelines may be followed while calling tenders:-

A) NEW LINES/DOUBLING/GAUGE CONVERSION:

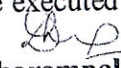

- i) Combined Tender for earthwork/blanketing and minor bridges are to be called for at least one section. If land is available, then tender for more than one section may be called by clubbing the requirement.
- ii) For major bridges, one tender by clubbing the requirement of at least 5 to 6 major bridges or 2 sections.
- iii) Tender for P.Way work is to be called for at least 20 Km or 2-block sections at a stretch. If ballast cannot be transported through wagons, 50% ballast is to be collected on cess by a separate tender.
- iv) Combined tender for all the works of station building, service buildings, gate lodges, signal buildings etc for at least one block section.
- v) **Electrical** – One tender at least covering 3-stations or 2-block sections.
- vi) **S&T** - One tender at least covering 3-stations or 2-block sections.

B) FOR OTHER SANCTIONED WORKS OF OTHER P.H.: For other P.H, only one tender for one sanctioned work should be called without splitting of work.

Above guidelines are to be followed strictly and any deviation of the same requires approval of CAO/Con.

2.0 Granting extension of time.

- 2.1.1 In case of granting of extension to contracts, all the contract files of doubling and Traffic facilities works, are to be put up to CAO/C for his information to know the reasons of extension as these works are to be executed on top-most priority.
