Dy Chief Engineer/Con/JMP/BGP/MLDT

Sub : Proposal for extension of completion period of the contract

It is noticed that 'no claim certificate' is not being furnished properly by the Contractors along with their application for extension of completion period of the contracts in most of the cases. As a result for such incorrect application, granting extension of the completion period by the competent authority gets delayed.

It is therefore requested to obtain necessary 'no claim certificate' from the contractors in the following form and enclose the same with your proposal and other requisite papers including check list without fail so to avoid any unnecessarily delay in this office on this account :-

1. I /We will do the works at the same rates, terms and conditions of the agreement /contract during extended period
2. I/ We will not claim any compensation, Damages or loss what so ever for the extended period of contract if so granted by the Railway administration.
