Sub: Appointment on Compassionate ground – verification of educational qualification certificate thereof.

It has been noticed that submission of enquiry report in connection with compassionate ground appointment cases are delayed due to verification of educational qualification certificates of the candidate from the concerned School/College as well as spot verification of the genuineness of the candidate for which consideration of the cases are also delayed.

Therefore, it has been decided that henceforth, S&WI may verify the genuineness of the educational certificate of the candidates through website of the concerned Education Board/University or refer to the concerned Secretary of the Board/University in order to expedite to submit enquiry report for consideration of compassionate ground appointment cases expeditiously to save the bereaved family from financial hardship.

This has the approval of the competent authority.
