- 

Vide letter under reference, a 15 days safety drive is launched on GR & SR 4.50 on the occasion of "International Level Crossings Awareness Day (ILCAD) on 9<sup>th</sup> June 2022 on the following points;

**SR 4.50(b):** W/L boards are provided on the approaches of all unmanned & manned level crossings at a distance of 600metres on either side of the level crossing. Loco Pilot/Motorman must sound whistle/horn immediately after sighting this board to give a very effective audible warning to the road users & motor vehicles. The Loco Pilot/Motorman shall be sound the whistle / horn intermittently from "**W/L**" board.

- (i) Loco Pilot/ motorman must sound whistle/horn immediately after sighting the Whistle Board as per SR 4.50(b) as under:
  - (a) Intermittent whistle from **W/L** board to level crossing gate at manned level crossing gate.
  - (b) Intermittent whistle from **W/L** board to **RW/L** board and continuous whistle from **RW/L** board up to level crossing shall be sounded at **unmanned** level crossing.

This should be followed meticulously by all loco pilots. All CLIs to ensure counseling on the above subject & compliance of the same.
