

ON-LINE TRAINING

Amidst the ongoing pandemic, an online portal with the address www.ersdahmddtinh.com was created to facilitate smooth training of the Technical staff. The portal was created and hosted on Spayee.com where more than 500 trainees were registered and provided with individual login details. The training modules were recorded in the form of short videos by the Supervisors themselves on topics covered from the prescribed syllabus. Each module was followed by a time bound set having of a set of questions to analyze the progress of the trainees. This portal could be accessed online by the trainees from anywhere. Multi Disciplinary Divisional Training Centre/Naihati use this portal as when required.
