Sub.: Evaluation of OMR Answer Sheets of RRB examination -
regarding uniform method.

There have been instances where one (or more) set of question Paper(s) involves an error in question(s) at the printing stage or a question having wrong answer or otherwise. It has come to notice that different RRBs are adopting different methods for dealing with such cases. With a view to have uniformity by all RRBs in such cases, please note that in future, wherever, any question(s) in the question paper(s) is found to be incorrect, the question(s) may be omitted from the scope of evaluation instead of giving grace mark(s) and raw score may be assessed on percentage basis. For example, there are total 100 number of questions and one question is wrong, only marking of 99 questions be considered and the marks obtained may be proportionally equated to the marks of 100 questions followed by necessary normalization process.
