IRHS Doctor: Nil; PTDS : 01: HVS: 01

Rendering oral health services which includes modern and cost effective

Both indoor and outdoor patients are attended daily including dental emergencies round the clock Special attention is given for prevention and early detection of oral pre-cancerous and cancerous lesions Referrals to private hospitals for dental surgical procedures during the last two years are nil.

Most up-to-date diagnostic facilities and high quality dental equipments and materials are used at par with corporate hospitals and clinics.

Education and motivation of patients are routinely done for maintenance of good oral health and hygiene.

Only centre in Indian Railways where dental implant surgeries are done free of cost for the railway beneficiaries Claim for reimbursement in dental treatment is nil during the last three years.

Latest B2 autoclave is installed for sterilization of dental surgical instruments

Facility for Orthopantomogram X-rays (OPG) with Cephalometry is available in the department.

Department of SURGERY:

Beds, Male- 64, Female- 53

No of IRHS Doctor: 04, Sr.Resident-2, DNB Pgt-5

No of bed: 150

OPD: 25000/year

Plastic Surgery – Tues (10:30 am)

Neurosurgery (Wed) (10:30 am)

6 days/week Gen Surgery OPD

Uro surgery- Thursday, Oncology- Tuesday 2pm,

Oncosurgery OPD- Monday 10.30 am

24×7 in-house on call one IRHS and one DNB PGT

Total no of surgery average

2750/year Special and Major 1250/year

Minor and Trivial 1500/year

A) Special surgery: Laprioscopic, Appendectomy, Laparoscopic ,Cholecystectomy, Hernioplasty Uterolithotomy , IPOM , Laparoscopic varicocele surgery,Laparoscopic Radical Nephrectomy, and Adrenalectomy, PyeloroPlasty, and Minimally invasive Prostectomy

B) Other non laparoscopic special surgery: Whipple's procedure, Radical cystectomy, Nephrectomy,

All abdominal cancer surgery, Parathyroid, Parotid, Thyroid, Breast Cancer surgery, PCNL Uretero Renoscopy with laser lithotripsy.etc

Academic activities -DNB Training

Theory and practical classes regularly taken by IRHS doctors

Regular Practical hands on training in OPD and OT

Encourage PGT s to attend state and national level conference and for documentation and paper publication of interesting works in the department, index journal.

HVS – Onco-surgery, Neurosurgery, Plastic Surgery, Oncology

Department of OBSTETRICS & GYNAECOLOGY:

No. of IRHS Doctors-3, Sr.Resident-2, DNB Pgt-6

Salient features of the department:-

Beds - 20

Obstetrics:

Antenatal & post natal clinic –Mon, Thurs, Sat.

Family Planning Clinic / counseling

Gynaecology: Beds- 22

Gynae Clinic daily & Post natal Clinic

Operative Procedures:

Obstetrics: Normal delivery , Forceps delivery & Caesarean section

Gynaecology:

All types of Gynecological Surgery, Onco Surgery, Laparoscopic surgery & Hysteroscopic surgery

Academics:

DNB Training

Theory Classes taken by IRHS Doctors & Senior Residents.

Practical training in OPD & Operation theatre including Hands on training.

Also encouraging PGT's to present papers in State & National Conferences.

Department of ANESTHESIOLOGY:

ICCVS – 12 Beds

No of IRHS Doctors: 06 , Sr.Resident-2, DNB Pgt-6

Departmental Activities:

Peri operative Care for General Surgery, Obstetrics & Gynaecology Neurosurgery, Thoracic Surgery, Uro Surgery, Otolaryngology, Onco surgery etc.

Intensive Care in Surgical ICU.

Intubation & Ventilation support to ITU, Pain clinic services.

Active support to Covid CCU during the Covid Pandemic

DNB teaching & training

OPERATION THEATRES:

Total nos. of OT in BRSH:12

Main OT: 06

Eye OT: 02

ENT OT: 01

CTVS OT: 01(Modular)

Cathlab: 01

Pacemaker OT: 01

Average No. of Operations / day: 27

Modular OT (Orthopaedics)

Department of OPHTHALMOLOGY:

Ophthalmologists: 01, Sr.Resident-2, DNB Pgt-5

Ophthalmic technician cum optician: 02

Separate OT Complex OPD on

Mon, Wed, Thurs

OT on Tues, Fri, Sat

Average No. of OT: 120/month

Department of ENT:

IRHS Doctors: 02

Audiologist cum speech and language pathologist: 01

OPD Attendance: approximately 75 patients per day

Referred cases from NFR, SER, ECR, CLW and Metro Rly, Kolkata

There is 24x7 ENT on call backup facility to deal with emergent conditions like epistaxis, trauma and foreign bodies.

During the pandemic of COVID-19, ENT department has played following important roles: Taking of nasopharyngeal swab from fever clinic and indoor admitted patients for RTPCR study

Clinical assessment, diagnosis and treatment of ILI (Influenza like illness) and SARI (severe acute respiratory illness) cases

Department of MEDICINE:

Beds – 96 Male, Female – 102

IRHS Doctors: 05, 02 Senior Residents, 14 DNB PGT

The Department of General Medicine has 03 Female, 03 Male wards and an Intensive Care Unit.

This Department forms the back bone of the hospital and caters to a huge bulk of all in-patient admissions. 08 IRHS Doctors including doctors of the intensive care unit.

Average Admission: 25 to 30 per day

Yearly Admission: around 8000 and 7500 in male and female indoor

10 bedded ITU or Intensive Therapy Unit is equipped with the facilities of

1. Invasive and Non invasive mechanical ventilation
2. Continuous hemodynamic monitoring,
3. Central venous access
4. Arterial Blood Gas
5. Portable USG
6. Portable X-Ray

Department is well known for its Academic brilliance.

Doctors are regularly invited to National and International Conferences as Speakers Gets published in high impact journals of repute and also contribute to Book chapters. Centre for the Practical examination conducted by the National Board of Examinations.

The uniqueness of this department is that the doctors, additionally, provide super specialty services which are in accordance to their super specialty training.

- The Rheumatology & Lupus OPD runs twice/ week with an average attendance of 60-70/week. There are referrals from SE Rly,/SCRly/NF Rly, NE RLY as this is the only Rheumatology clinic in Eastern India. Diagnostic & therapeutic joint aspirations, Intra articular injections, carpal tunnel Injections and injection of special Biologic medicines in different autoimmune diseases.

- Diabetic and a special endocrinology clinic run by Endocrinologist.
Diabetic clinic is held once/week and is attended by approximate 100 pts/day while the special Endocrinology OPD runs once/week with approximately 35 patients/day by appointment.

- Gastroenterology Clinic run by qualified Gastroenterologist

Upper GI Endoscopies/Colonoscopies and Variceal band ligation are done.
The gastroenterology clinic attendance is around 1600/yr.

- Pulmonology and Chest Clinic
RNTCP program for tuberculosis
Lung function tests (1500/yr) in the Pulmonology clinic which runs twice/wk and is attended by approximately 50- 70 patients/day.
Dedicated severe asthma clinic where patients get individualized therapy based on a special test known as *sputum quantitative assay*. BR Singh hospital is the only centre to have this expertise nationally.

A dedicated post COVID lung fibrosis clinic has been started recently. Patients have the special benefit of being monitored very closely with 6-minute walk test, serial radiologic assessment and getting the benefit of up-to-date medications including biologics.

HVS – Hematology, Gastroenterology

Department of CARDIOLOGY:

Beds – 10 (ICCV), 16 (Semi-ICCV), CTVS- 4, Total - 30

IRHS Doctors: 02, Sr.Resident-05, Specialist CMP-1, HVS-1

Case to Case CTVS Consultant: 01

Coronary Angiography, Angioplasty & Stenting including Balloon Mitral

Valvotomy (BMV) Special Procedures EP + RFA, Rotablation

Fractional Flow Reserve

(FFR) ASD Device

Intra Vascular Ultra Sound (IVUS)

(ROTA and IVUS new machines from Jan

2019) Permanent Pacemaker Including

Devices (Includes AICD, CRT, COMBO,

ILR)

Temporary Pacemaker Implantation

Cardiac Surgery (CABG + VALVES + ASD closure)

Department of NEPHROLOGY:

IRHS: 01

Beds - 14

Paramedical ,Staff Nurse - 08

Haemodialysis Technicians (RRB)-03

Haemodialysis Technicians (Contractual)-05

Services Offered:

Haemodialysis

Peritoneal dialysis

Post transplant follow up

Renal Biopsy

Dialysis access creation- AV fistula

IJV line placement

Perma Cath placement

Renal Counseling

OPD Services

Registered HD patients - 999 patients

Registered Transplant patients - 65

Registered CAPD patients- 14

Department of PAEDIATRICS:

IRHS Doctor- 02 , Senior Residents 02, DNB PGT 7

Number of Beds: 21 (including 06 NICU)

Patient Care Services:

Paed OPD

1)Well Baby Clinic

2)Vaccination Clinic

NICU: IV Drip/Infusion, O2 Hood, Phototherapy, CPAP, Ventilation, Exchange transfusion

DNB Teaching:

1.Seminars / Guest lectures

2.Case presentations

3.Bedside Clinics:

Periodic formative assessment tests

DNB Final Practical Exam held

Department of RADIOLOGY & IMAGING:

IRHS Doctors: 02, HVS-1

Round the clock service 24x7 all

days The following equipments

are available:

300 mA Conventional X-Ray machine =One

500 mA Digital X-Ray Machine=Two

Computerized Radiography System=One

Ultrasonography Machine=One

Colour Doppler Machine =One

16 Slice CT Scanner =One

Portable/Mobile X-Ray Machine =One

Average CT Scans per day: 15-25

Average Total Digital X-Ray per day: 100-150

Average Total USG per day: 40-50

Colour Doppler Studies:

5-6 USG guided interventions CT: 46(referred outside) for CT guided biography

PET CT: 148(referred outside)

MRI: 750(referred outside-from Jan 2020 to Dec 2020)

Department of PATHOLOGY AND BLOOD BANK: IRHS DOCTORS: -

02 Senior Residents-02, DNB PGT-3

GROUP B OFFICER: 01(Biochemist)

Case to case basis doctor -01 for complicated Histopathology and Cytology slides.

TECHNICIANS- SS-25, MOR-17, CONTR-07, V- 01 LAB./HOSP. ATTNDT: 07

Reporting of Complete Blood Counts of about 150 IPD and OPD patients daily

Slide Reporting of Differential Counts of 150 patients daily.

Slide Reporting of Malaria Parasites and Microfilaria Reporting of Bone Marrow slides

Bleeding and Clotting Time

Coagulation Studies like PT, APTT, INR and FDP Performance of ESR counts

Osmotic Fragility Tests

Clot Retraction Test

LE cell phenomenon

Sickling Test

Aldehyde Test

INSTRUMENTS:

SYSMEX-XT 2000i -5- Part Blood Cell Counter

Beckman & Coulter 5 Part Blood Cell Counter (On Reagent

Rental Basis) SYSMEX-CA-50 – For coagulation studies

Semi Automated Coagulation Analyzer - For coagulation

studies (Make: Erba Lechama SRO, Erba Mannheim;

Model: Erba Ecl 412) **Serology**

Widal Test

C-Reactive protein

RA Test
ANA Test (ELISA)
Anti ds DNA(ELISA)
Serology tests for Malaria Antigen-P.vivax and P.
Falciparum Dengue Test (both ELISA and spot)
Pregnancy test
Typhi Dot test
New – True NAT
HPLC for Thalasemia

Histopathology & Cytopathology

Surgical specimens are sent from every Divisional Hospital of Eastern Railway as this is the only centre performing Histopathology.

Grossing of Surgical specimens, Processing and Reporting of Histopathology slides

FNAC of referred patients from majority of Divisional Hospitals of Eastern Railway as this is a referral centre performing FNAC.

Exfoliative Cytology of Serous effusions like pleural, peritoneal, pericardial effusions for cancer screening. Cancer screening of cervical and uterine cancer for the ongoing Cancer screening programme

Review of Histopathology, FNAC and CT-guided FNAC slides of IPD and OPD patients

Blood Bank:

B.R.Singh Hospital Blood Bank is a state-of-the-art licensed Blood Bank by the West Bengal and Central Drug Licensing Authority for manufacture and supply of high quality Whole Human Blood IP to the Railway Beneficiaries.

This Blood Bank has been providing round-the –clock life-saving quality services to the Railway beneficiaries for a long period of time. It caters to the IPD patients not only of this Hospital but also to those of Howrah Orthopaedic Hospital, Liluah and Kanchrapara Workshop Hospitals and at times to those of Garden Reach Hospital (Central Hospital of South Eastern Railway). This Blood Bank uses the latest gel technology for blood group and cross-match before blood units are dispatched for transfusion to patients.

The Blood units are stored in spacious and sophisticated Blood Bank refrigerators with storage capacity of about 240 units each and provided with temperature chart and alarm device.

Department of AYUSH:

Inaugurated by Honorable MR on 9th September 2016

Treatment given in separate dedicated OPDs in three

Disciplines: Homeopathy (01 Doctor)

Unani (01 Doctor)

Ayurvedic (02 Doctors) one of them works at Fairley Place OPD: Daily

Hospital Kitchen: In house

Sr.Dietician: 00

Ministerial staff: 02

Sr.Cook, Cook, Asst Cook/Masalchi

Hospital Sanitation & Cleaning:

New G+5 Building:

Outsourced Old Assets: In house

Laundry: Outsourced

Central Medical Gas Pipeline (CMGPL):

Liquid Oxygen Plant in Hospital complex

New G +5 Building covered with CMGPL

Old Assets: Partially covered

Plan to cover all 445 Beds with CMGPL

AYUSHMAN BHARAT (AB-PMJ):

B.R.Singh Hospital is empanelled
Hospital AB-PMJ Counter opened in
Emergency Block
All requisite Hardware have been installed in the
Kiosk Signage displayed at prominent point in
B.R.Singh Hospital

Pradhanmantri Bharatiya Janausadhi Pariyojna:

Location identified in BRSH

ATM Counter:

Near Main Gate

Hospital Canteen and Coffee Corner: Outsourced (run by ERWWO)

COVID-19 Pandemic Crisis Management:

B.R.Singh Hospital was initially designated as Non COVID Hospital in 2020.
All Non COVID patients from DRH/HWH, WSH/LLH, WSH/KPA and M.RLY Hospital were referred to BRSH for OPD & IPD treatment.
Fever Clinic were run daily
25 Bedded ISOLATION Ward was running in BRSH
In August 2021, it was decided by the Competent Authority to get BRSH ready to provide Level 3 care for COVID patients. Old Surgical ICU and ITU were converted into COVID CCU.
Negative Pressure facility was installed in one 10 Bedded COVID CCU.
20 Bedded COVID CCU was set up, along with 40 Bedded Step-Down COVID Units.
Regular Nasopharyngeal swabs were collected daily and sent to NICED/Kolkata for RT PCR testing RAT was regularly done 24 x 7 in BRSH
Adequate PPE, Disposable surgical Gown, N95 Masks, 3 Layer Mask, Face shield, Goggles, Gloves, etc. were provided to all Officers and Employees
Protective transparent curtains installed in all OPDs and Nursing Stations in IPDs
Protective transparent Barriers installed in Medical Examination Room, Cardiology OPD, Eye OPD etc Sanitization was done routinely throughout the Hospital
3 Ambulances and 2 Staff Car hired for COVID crisis during Lockdown period.
Three new Cabins have been constructed in Ground Floor of new G+5 Building for Non COVID cases COVID Positive patients with mainly respiratory problems (ARDS, COVID Pneumonia), acute kidney injury, Chronic Kidney disease on MHD, Cardiac patients, mainly those with ACS and heart block, patients with chronic liver disease and Covid positive patients who suffered CVA, were admitted in COVID CCU.
Contract Medical Practitioners, Nurses and Paramedical staff were regularly imparted training in the care of critically ill Covid Positive patients.
Specimens were collected, SRFs generated and reports received.
