

INFRASTRUCTURE OF MEDICAL DEPARTMENT, EASTERN RAILWAY:

The Medical Department of Eastern Railway started functioning as a full-fledged Department, headed by Chief Medical Officer as early as in 1893.

- Medical Department of Eastern Railway provides medical facilities to 1,03,338 nos. of Railway employees, 87,890 Retired Railway Employees and their family members through **8 Hospitals, 46 Health Units and 11 lock-up Dispensaries**. The IRHS cadre of Medical Department of Metro Railway, Kolkata, is under the technical control of Eastern Railway.
- This Department provides comprehensive medical care to its beneficiaries through Primary Health Care at the Health Unit Level, Secondary Health Care at the Divisional and Workshop Hospital Level and Tertiary Medical Care at the Central Hospital level at B.R.Singh Hospital. In addition, Tertiary Medical Care in selected specialties, where facilities are not available in our Hospitals, are also provided through tie-up with different corporate Hospitals in Kolkata, Howrah, Asansol, Malda, Jamalpur and other places within the jurisdiction of this Zone.
- In certain cases, the Railway Beneficiaries are also reimbursed, the expenditure incurred in Non-Railway Hospitals for treatment and investigations, where such facilities are either not available in Railway Hospitals or the beneficiary could not avail the same due to urgency or other valid reasons as outlined in the relevant guidelines.
